Palawan comes closer to the city, sets up one-stop shop in Manila

By Dennis Reyes, Business

Manila, Jan. 27—Palawan's proximity to the city has been a double-edged sword. While it has helped the island province attract tourists, it has also made it difficult for the province to manage its growth. To address this, the Palawan Development Office (PDO) has set up a one-stop shop in Manila.

The PDO, which is a joint venture between the Palawan government and the Department of Tourism, aims to provide a single point of contact for all Palawan-related business transactions. This includes everything from tourism promotion to investment opportunities.

The PDO's Manila office is located in the heart of the city, making it easily accessible to both local and international business partners. The office will be staffed by experienced professionals who will be able to provide a high level of service to all clients.

The PDO's Manila office is expected to become a key player in the Palawan business community. It will be able to provide a wide range of services, including business registration, tax assistance, and legal advice.

The PDO's Manila office is also expected to play a key role in the development of Palawan's tourism industry. It will be able to provide a wide range of services, including tourism promotion, tour booking, and transportation services.
